

Norman Noble to be Key Sponsor of 2025 SMST Ireland Event *Manufacturing Leader to Support Advancing Nitinol Technologies*

HIGHLAND HEIGHTS, OHIO – May 7, 2025 – Norman Noble, Inc., a recognized leader in microprecision manufacturing of next-generation medical implants, will serve as the Industry Partner for SMST Ireland, taking place on May 22, 2025, in Galway, Ireland. Norman Noble is also sponsoring the Nitinol Educational Workshop on Wednesday, May 21, held in conjunction with the event.

SMST Ireland brings together global experts, engineers, and manufacturers to explore the latest innovations in nitinol. As a longtime contract manufacturer of complex nitinol-based medical implants, Norman Noble is proud to support both the conference and the educational course that provides foundational knowledge on working with nitinol.

“Our role as Industry Partner reflects our commitment to advancing nitinol manufacturing and supporting knowledge-sharing within the industry,” said Brian Hrouda, Director of Global Sales & Marketing at Norman Noble. “We look forward to connecting with fellow attendees and showcasing how Norman Noble’s innovative manufacturing enables OEMs to bring next-gen nitinol implants to market fast.”

About Norman Noble, Inc.

Established over 75 years ago, Norman Noble, Inc. remains a family-owned and -operated company offering the most advanced processes for ultra-precision micromachining of medical implants. The company is known for its exceptional ability to produce nitinol-based implants and to achieve sub-miniature precision beyond the reach of most manufacturers. Norman Noble, Inc. is a supplier to most of the largest OEMs and well-known names in the medical device industry.

Norman Noble manufactures medical devices and implants to customer specifications in compliance with FDA regulations and ISO 13485. State-of-the-art processes include athermal laser machining, laser welding, Swiss turning and milling, conventional and wire EDM, high-speed 7-axis contour milling, electropolishing, nitinol shape setting, and clean room assembly and packaging. Rapid development prototyping services are available in separate and fully dedicated process development centers. FDA Registration #1531050. Virtual tour and more information: www.nnoble.com.
